PERTH A SAFE, MULTICULTURAL CITY

Perth is a safe, modern and prosperous city that is consistently ranked among the best cities in the world. It has many parks, beaches and entertainment precincts with restaurants, cafes, theatres, music venues, museums and a thriving arts scene.

Perth is a truly multicultural city with more than one third of its residents born overseas.

It is located in the same +8 time zone as Singapore and Beijing, which is shared by around a quarter of the world's population. This makes it easy for students to keep in touch with family at home.

With a state population of more than two million people, Western Australia has one of the best performing economies in the world.

ABOUT CANNING COLLEGE

With a reputation built over more than 40 years, Canning College delivers programs that prepare international students for the academic and personal adjustment needed for university success.

Canning College has long-standing relationships with Curtin University, The University of Western Australia, Murdoch University, The University of Notre Dame Australia and Edith Cowan University, which makes access to these WA institutions easier for international students.

Canning College graduates can also enter leading universities elsewhere in Australia, including The University of Melbourne and The University of Sydney, as well as overseas institutions.

OUR TEACHERS AND STAFF MAKE THE DIFFERENCE

When we ask our international students what they like most about Canning College, they often say our teachers and support staff.

We understand that international students arrive in Perth with different expectations, academic levels and career goals, and we make it our responsibility to assist them every step of their journey. Our teachers are highly qualified and experienced in the needs of international students. The transition from the closely supervised learning of high school to the more independent learning of university requires students to develop and grow.

We set up students for success by providing the appropriate guidance and advice on academic and personal matters. This includes expert coaching and study techniques that will help students achieve entry into their chosen university. We teach study habits that will form life-long routines to support students throughout their studies and future careers.

Our Principal, Leila Bothams, is one of the WA Department of Education's most senior and experienced secondary school Principals. For 10 years she was Principal of one of Australia's top schools, Rossmoyne Senior High School, she established a high-performing school as the foundation Principal of Harrisdale Senior High School, and she has been a director of three education districts.

Principal, Leila Bothams

“The teachers were always encouraging us to ask questions and guided us to think about the answers as well. Apart from preparing us for university in terms of building good academic habits/skill sets, the program was also helpful as I was able to take up a new subject, Human Biology.”

Carina (Singapore)

“The teachers are so supportive. If you don’t understand something in the classroom, they always provide extra sessions in the library and things like that to make sure that you understand everything. Canning College helped me develop a lot of skills before I went into university.”
